MONEY MARKET.

PRIDAY, Peb. 8-6 P. M. The stock market was all in favor of holders and purchasers for a rise this morning. There were very large transactions in all the leading securities, and a speculative spirit of considerable force was appareat from the opening. At the first board Illinois Central bonds advanced † per cent; Nicaragua Transit, j; New York Central Railroad, 1; Erie, 1; Reading 1; Hudson Bailroad 1; Michigan Central Reading, 1: Hudson Railroad, 1: Michigan Central, 1; Michigan Southern, 12; Cleveland and Toledo, 2; Chicago and Rock Island, 12; Milwaukie and Mississippi, 1. Galena and Chicago fell off a per cent;
Missouri 6's, 4. Erie, Reading and Michigan Southern were the leading cards, particularly the latter.
Michigan Southern has not been so active for many years, if ever before. The sales at the first board today sum up two thousand shares. The rise in this stock, within the past ten days, is considered by bear speculators very great, but the current price is nothing compared with that which has ruled within the past twelve mouths. Last August and September the current market value was 104 a 105 per cent and we see no reason why it should not touch these points again. Then it was but a ten per cent stock. Now it is at least a twelve per cent investment at par. Buring the present fiscal year this company will derive a revenue from sources which, six months ago, were almost unknown The opening of the line of road through Pennsylvania, connecting this city with the West via Harrisburg, Pittsburg, Cleveland, Toledo, &c., makes the Michigan Soutuern a link in the great chain of roads from the Atlantic to the ern takes. The great Southern route, avoiding the high latitudes of the New York Central, must, during the winter mouths, command the bulk of travel and traffic, particularly the transportation of cattle. The dangers and delays experienced the present winter must turn the attention of travellers and shippers to the Southern route, and attract, for a portion of the year at least, a lurge portion of the through business. These movements all point to a great increase of traffic on the Michlgan Southern road, and to a very large increase in its revenue. Travel and trade passing East or West must be drawn to this road as a sort of trunk line, the diverging points from which will be Toledo and Detroit at the east, and Chicago at the west end of the line. It is these advantages of position that have attracted the attention of some of our strongest and shrewdest capitalists, and induced them to purchase to the extent exhibited by the daily sales at the stock board. Erie was quite active to-day. It closed firm at our quotations. Reading is gradually working up to the old point, dividend on. Galena and Chicago fluctuated considerably to-day. A very large quantity of stock was forced upon the market, both at and between the boards. New York Central Raffroad sold freely this morning. We understand that sales of this stock have been made to some extent within the past few days for the purpose of investing the proceeds in Michigan Southern, and that the proceeds of dividends in New York Central have

gan Southern.

At the second board the market was all up. Speculation has become quite active, and there is a strong movement in all the leading securi ies. Cumberland went up | percent; Nicaragua, +; New York Central, 1; Michigan Southern, 1; Galena and Chicago, 4; Illinois Central bonds, 4. Erie closed steady. The market closed firm, with an upward tendency. The hears will find it uphill work to stem the current now setting towards higher prices. Money is abundant, and likely to continue so. The country is full of capital, and we look for the absorp tion of a vast amount of stocks, and their withdraw

been invested in the same way. This looks as

though the right kind of men were buying Michi

The earnings of the Illinois Central Rallroad Company for January, 1856, amounted to \$135,000. gainst \$57,000 for the same month last year, show ing an increase of \$78,000, equal to one hundred and thirty per cent. The land sales figure up \$175,. 000, averaging upwards of \$15 per acre. The Pre mident of the company has introduced a new sys-tem in the sales of land, which must be attended with the best results. Its advantages will soon be seen in the land sales of the company and in the revenue of the road. The road is in the hands of class of men vastly superior to those who managed its affairs in its early history, and the final result of its land operations will astonish the financiers of both the Old and New World.

The Brooklyn and Jamaica Railroad has declared semi-annual dividend of four per cent; the Lorillard Fire Insurance Company a semi-annual dividend of five per cent; the City Bank of Hartford, Ct., five dollars per share. The Harlem Railroad Company earned in Decem

ber, 1855, \$81,182 37, of which \$41,630 19 was from passengers; \$34,739 66 from freight, and the balance from miscellaneous sources. The report of the New Orleans banks for the week ending Jan. 26, shows an increase in specie of

\$381 626; in circulation, \$153,895; in loans, \$373 397 and a decrease in deposits of \$68,872, compared with the returns of the previous week. We learn there are 720 subscribers to the capital

stock of the Park Bank, nearly all of whom signed the articles of association on Tuesday, Wednesday and Thursday of this week, at the City Bank. Those who have not signed will find the books of subscrip tion all day Saturday, the 9th, at the counting room of Mesers. Howes, Hyatt & Co., 53 Murray street.

The architects-Messrs, T. Thomas & Sons-are now constructing the banking rooms in the building. (late Clinton Hotel), at the head of Beekman street, opposite the Park, which it is expected will be com-pleted on or before the first of April. Since the nk purchased this building events have transpired that must add largely to the value of the property and to the importance of the position.

There is now very little doubt but that the Post Office will, sooner or later, be on the site of the old Brick Church. A recent decision has settled the right of the church proprietors to sell, and we have no doubt immediate measures will be adopted by the no doubt immediate measures will be adopted by the general government to secure it. Had Mr. Miller at owner of the Clinton Hotel, waited a lit ger he would have realized a much larger price for the property. The bank was fortunate in se-curing it at any price. All that we said in favor of the location when the bank directors were hesitating about the purchase, has been confirmed, and those who before were in favor of a position on Broadway, now admit that the right spot has been selected.

The business of the Reading Railroad Company during the year ending Nov. 30, 1855, was as an-

This table shows at a glance the operations of this company each year. It will be seen that the revenue has increased much more rapidly than the expenses. In 1851, 1852 and 1853 the expenses did not vary \$50,000, while in the same time the gross revenue increased nearly \$400,000. The gross re ceipts in 1855 were \$510,258 greater than those of 1854, while the expenses were only \$55,384 greater

than for the year previous.

The adjourned meeting of the Boston and Providence Railroad was held at Boston on Wednesday, to hear the report of the investigating committee. The Boston Transcript furnishes the following ab

stract:—
It recommends an advance of fifty per cent upon the pre ent rates of season tickets, and twenty per cent upon all "transient passenger tickets." It also proposes a restriction of free passes over the road, so that no person shall be furnished with them except the officers of the "main road, these persons who, by contract, have a right to a free pass, and persons in the employ of the road."

In regard to the financial condition of the roat, the report states that the capital stock is now \$3,160,000, and the construction account has increased from two to over three and a half millions of dillars. The difference between these two constitution, "sursannially the bonded and floating debt." The committee say the construction account should be closed, and everything be charged to expense account. stract:-

struction account should be closed, and everything be charged to expense account.

The Virgints wood land purchased by the corporation is alluded to. It comprises 1.75-14 and a survive \$11,500. An agent, with a salary of \$1,000 a year, has been employed to superintend the enterprise and pepare the wood for the market. The committee think it uncless to compete with in initiand enterprise in the matter, and secondmend the sale of the lund.

The report refers to the number of accidents along the line of the road during the cold season, and as a mean of remedying this, advocates a reduction in speed of trains in he winter months whereby a great raving to the stockholders is confidently expected.

The favors to branch roads are degreented, and some reform rec minored to the adoption of the stockholders in this regard.

The report of the New Jersey Central Railroad.

The report of the New Jersey Central Railroad Company to the Legislature of that State gives the following exhibit of its financial condition, ordinary receipts and expenses during the last fiscal year :-

Value out on the market during the week .\$ 000 917 The dry goods trade experienced another drawback the past week by the continued severity of the weather, and transportation remained more or less obstructed in every direction, except by vesselbound to seaward and Southern ports; and navi. gation, even in this direction, was most difficult. owing to the presence of immense bodies of ice in the harbor. The interior merchants are not yet supplied with full assortments of goods for the spring trade, and where purchases have been made much. delay has been experienced in forwarding them. Intercourse by steamers with the east through Long Island Sound, has been suspended, and goods have accumulated at both ends of the steamboat routes-those here waiting shipment, while produce and manufactures are waiting for shipment to the city. The railroads leading west have been also greatly interfered with by the snow and ice. As soon as the avenues of transportation become fully opened there must be great activity experienced in the dry goods trade. In the meantime neither importers or jobbers are pressing sales. The stocks are good and in great variety of styles, and suitable to the trade in all parts of the country. The auction sales during the past week have also been affected by the weather, and sales have been made on rather a limited scale. The advance in cotton of ic. a ic. per pound, if maintained, will benefit Southern merchants, and not only make collections from that quarter easier, but lead to increased consumption and consequent demand for dry goods. A half cent per pound on cotton on one and a half millions of bales in the country, would make a difference in favor of the United States of \$3,000,000. The stock of British goods in the market is large, while continental goods are in fair supply, and not likely to be at any time during the season in excess of the demand. Black silks, which the past season sold at 70c., now command 85c. a 871c. Other seasonable and desirable French dress goods were also firm, and selling at full prices Domestic goods were rather quiet, without change of moment in quotations. Brown sheetings and

shirtings are selling moderately, chiefly for export,

at steady prices. Bleached sheetings and shirtings

were in increased supply and dull. Drills-Standard

ds were steady, at 7 jc. a 8c. for brown, for the home trade; and at 8 jc. for export. Extra quali-ties were je. higher. Cotton duck was steady, but sales were limited. Corsets and jeans were in fair request at 9 jc. for standard marks. Osnaburgs were less active, and lower grades were some easier. Stripes and Ticks-The market was firm, with a good stock on the market. Prints were firm better grades, and prices were well sustained, though the market was not active. Lawns, beyond a late auction, have not been distinguished for much movement. A moderate business was doing in ging-hams and mouselin de laines. Cloths were firm at the recent advance. Tweeds and jeans were dull Linseys were plenty at 12c. a 14c.

State, at \$7.07% a \$7.02%; mixed Michigan, at \$7.37% a \$7.40%; choice to extra Indiana and Ohio round hoop, at \$8. Canadian was quiet and sales were confined to 300 a 400 bbls., at \$7.75 a \$9.75. Southern was steady, with a coderate demand. The sales included about 1,200 a 1,20

oring confined to about 800 a 1,000 bales, the market closing firm.

Franchis.—To Liverport flour was firmer, with more offering, and from 4,000 a 5,000 bbls. were engaged a: 2s. 6d., wito some tots of provisions, at 25s. per son; 25 tons naple wood at 50s. per ten measurement. Obttom wast 7-20. a 3gd asked. To London provisions were engaged at 4s. fo Hevre 200 bales of cott in wese taken at 3gc. To Californis takes asged from 50c. a 15c.

Hat was unchanged, with moderate sales.

Mondays.—Sales of 200 bbls. New Objects were made at 45c. a 46c., and a cargo of clayed Cuba was sold at private terms.

Motasapa.—Sales of 250 bb/s. New O.—ans were made at Mc. a 46c., and a eargo of clayed Caba was soit at private terms.

Naval Storms were quiet, at 41c. a 42c. for spirits, \$1 50 for raw to remain.

Cuts were without change.

Cuts were without change.

Locusions—Fork.—The market was without change of importance. The sales embraced about 500 a 400 cbls., including mess. at 316 a \$167,12%, and prime a *\$14. Beef was heavy, and sales were contined to 120 bbls., including country prime at \$9 a \$9 75, and me a at \$10 a \$11. Repeaked Western mess was at \$14 a \$15 0. Beef himm were firm—sales 250 bbls. at \$14 a \$ 5. Prime mess was at \$19 a \$23, and without sales of moment. Bacon was steady, but without sales of moment or change in prices. Out meats were in tair demand, with sales of 10 packages, including shoulders, at 7%c. a 1%c., and hams at \$3.6. a \$%c. Lard was unchanged, while sales of about 300 bbls. were made at 10%c. 10%. Butter and cheese were in moderate demand, while quotations were unchanged.

Real Berark.—I lot, with buildings, corner of Harrison and Greenwich streets, 64x76, \$25 000; 3 do., corner of First svenue and Third street, 1x100, \$16,150; house and tot in Centre street, near Firth avenue, \$10,500; do. 18. Thirty-eight street, 1x10, \$2,000; do. on Second street, between avenues C and D, 26x106; \$4,000; 1 do. on Eighty-fourth street, near Firth avenue, 17x102, \$000. Rozz wasfull at \$%c. a 5c.

Stugars.—Sales of 250 bbls. New Orleans, at 8c. a \$%c.,

92% a 95c.
SUGARA.—Sales of 250 hbds. New Orleans, at 8c. a 8%c., and 100 do. Porto Rico, low grade, at 7%c. a 8c.
Tonacco is in fair request; prices firm and tending upward. The sales included 69 hbds. Kentucky, at 11%c. a 12%c.; 479 baves Havana, 25c. a 25c.; 72 cases seed leaf, 10c. a 16%c.; 36 do. Florida, 17c. a 27%c.
Winnerst.—Sales of 300 bbls. Ohio and Prison were

WHERET —Sales of 300 bbls. Ohio and Prison were made at 32%c. a 33c.

WOOL.—The demand for pulled wools since our last report has been somewhat better, and sales have been made of 10,000 bs. extra at 37%c. a 39c. The floer grades of fleece have been more inquired for, and we notice sales of 20,000 bs. at 'rom 38c. to 45c.

PARILY MARKETING.

MARKETING.

RETAIL PRICES OF PRODUCE AT THE WASHINGTON MARKET.

Meat still continues very high, owing in part to the detention of the railroad trains; but that will not account for the inordinate prices that now prevail. They are not unprecedented at the New York market, it is true, but while there was a show of reason for dear rates last year, consequence of the short grass crop of the previous commer, this year no such cause exists. That wholesa'e lealers charge retail dealers too much is proven by the fact that when called upon to supply hotels and the public institutions their rates are very reasonable. The following table shows the prices the Commissioners of

Emigration agreed to pay their contractors for the year, some days since, and also the prices retailers pay:—

Com. of Em. Recollers pay pay per ib.

Shoulders pay pay per ib. Buttucks 6 Chucks 6

Yet the contract is at these rates expects, and no doubt with, make a good deal of money.

Poultry and game is also high, with no prespect of reduction. Bear's meat is getting scarce; venison is still penty and really the chespest meat in market.

Fish is high, owing to the difficulty experienced by fishermen in pursuit of their calling. The advent of Lent also, by increasing the demand, has a tendency to keep up prices.

prices.

Figs are still dear, but dealers say they will be cheap
better many weeks are over.

Butter and choose maintain about the same rates. Ve-
